

# PVT<sup>1</sup> Test Request Process

<sup>1</sup> PVT = Performance Validation Test

# Activity comments

- **Customer**
  - Anyone can order a test but he/she must go through PMO<sup>2</sup> to secure budget when ordering a PVT.
- **PVT Planning**
  - PVT Planning consist of the “PVT Planning Responsible”, “Group Manager” and “Team Leader for PVT Drivers”.
- **Test Request is sent**
  - This process is started when a customer want to order a PVT on a vehicle and send a Test Request to PVT group inbox.
- **Test Request is received**
  - The Test Request is received and taken care of by the PVT Planning Responsible.
- **A decision of performance possibility is made**
  - The Test Request is compared with PVT plan and a decision of performance possibility is made by PVT Planning.
- **Test is accepted and inserted in planning**
  - The PVT Planning Responsible accepts/rejects the Test Request. If the Test Request is accepted the test is added to the PVT plan. The Customer is notified for both acceptance and rejection.
- **Test Engineer is decided**
  - The PVT Planning Responsible and Group Manager decide a PVT Test Engineer. The Customer is notified about the PVT Test Engineer and they will keep up the communication about the test.
- **Receiving test information**
  - The PVT Test Engineer is informed about the test and its requirements.
- **Test is prepared, executed and finished**
  - The PVT Test Engineer prepares the test and keep the communication with the Customer during the entire test.

<sup>2</sup>PMO = Project Management Office
