

RDM Remote Data Management

RDM from a user perspective at field test GTT

Tomas Ågren, Field test GTT

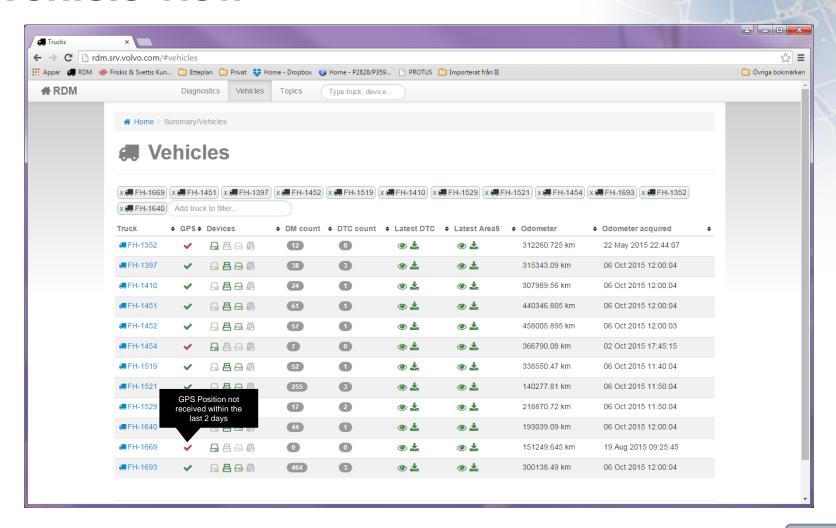

How we are using RDM in field test

- Diagnostics (Never used by me and seems not to be updated)
- Vehicle view
 - Topics (Questions, answers, feedback) Not updated with any topics latest months
 - Truck view
 - Details
- **√** <u>Мар</u>
 - Information
 - Diagnostics
- Area
 - DM (Diagnostics Messages broadcasting on BB1)
 - DTC (Diagnostic Trouble Codes)
 - Devices
 - Measurements
- ECU list

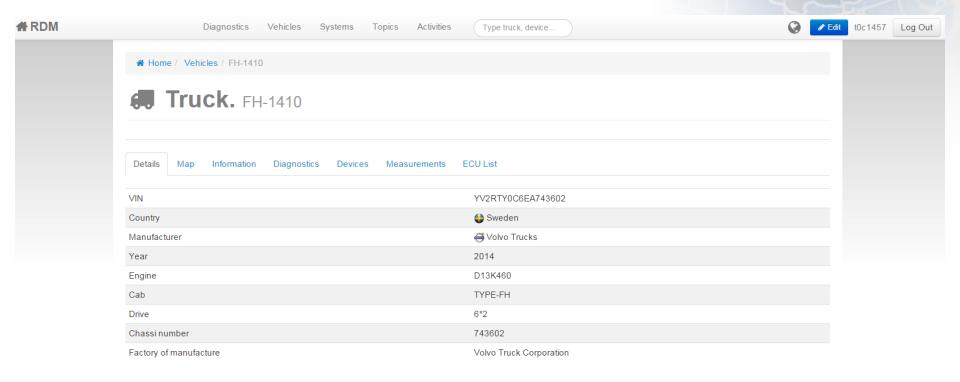

Vehicle view

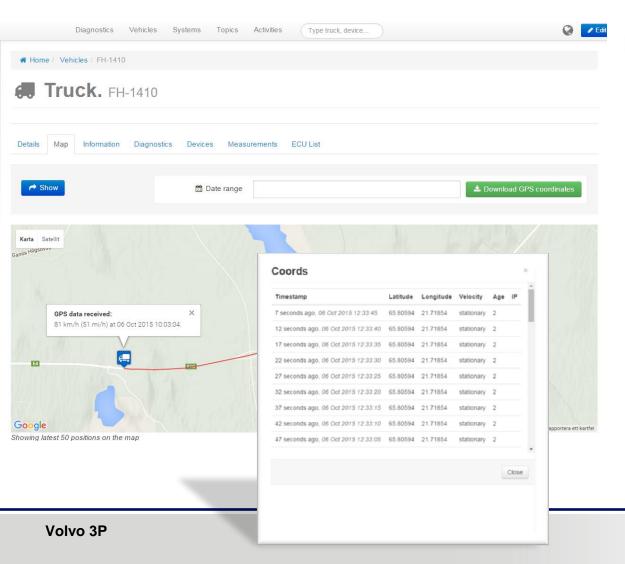

This view is filtered on the trucks which interests me most

Truck view - Details

Truck view - Map

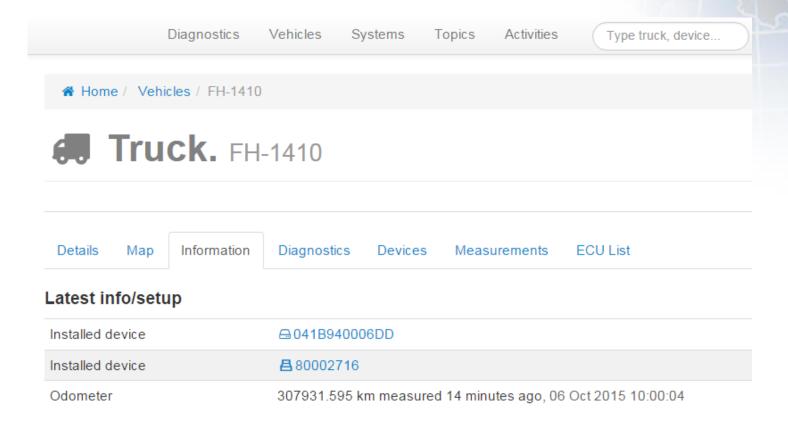

Pressing truck icon shows when latest GPS data was received

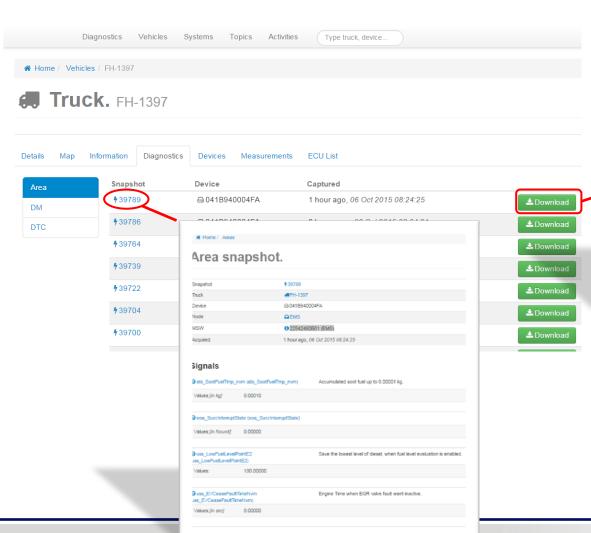

"Show" button shows 50 latest GPS points

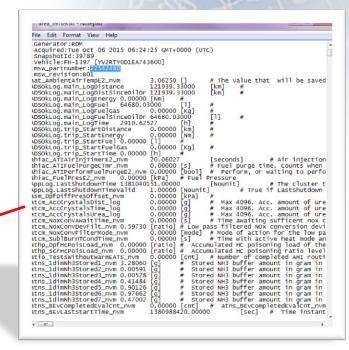

"Download GPS coordinates" downloads historic GPS data

Truck view - Information

Truck view - Diagnostics - Area5

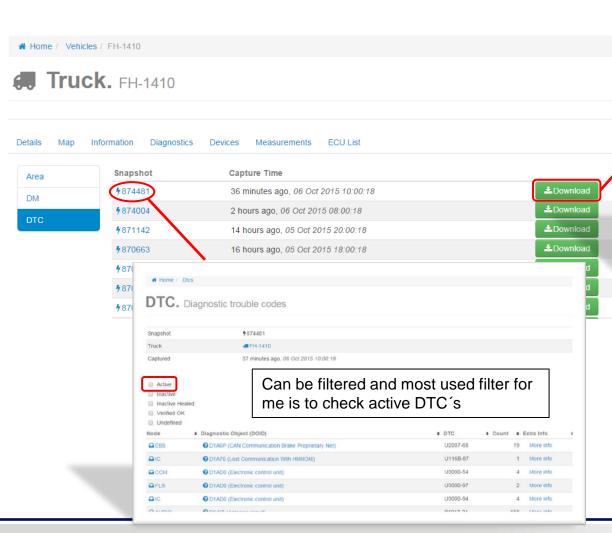

Always check that MSW number is correct!

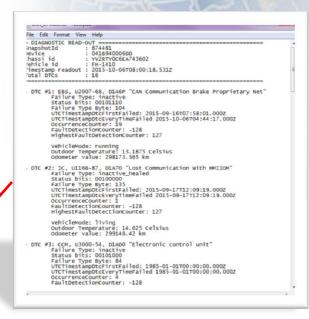

Truck view - Diagnostics - DM
